## BILL FOR THE MARITIME SECTOR REGULATORY (AMENDMENT) ACT NO. OF 2022

### Explanatory Note

This Bill amends the Maritime Sector Regulatory Act No. 26 of 2016.

This Bill amalgamates the Office of the Maritime Regulator and the Commissioner of Maritime Affairs into one maritime administration responsible for the regulation of domestic and international shipping and the Vanuatu maritime sector.

The following are the key policy features of this Bill:

#### **Reform program to strengthen the maritime sector**

In 2013, the Government undertook a reform program to strengthen the governance system of the maritime sector, including reforming its administrations. In 2016, the Office of the Maritime Regulator (“the OMR”) was established and was given the role to regulate domestic shipping safety and the maritime sector of Vanuatu. When setting up OMR in 2016, it was still premature to incorporate international shipping within the functions of the Regulator. The Government, therefore decided to first assess the performance of the Regulator and to leave the Commissioner under the Ministry of Public Utilities to regulate international shipping until such time merging was imperative.

#### **Amalgamation of the functions of the Regulator and the Commissioner under this Act**

After 4 years in operation the Government has decided to merge the functions and powers of the Regulator and the Commissioner into one administration. This Bill merges the functions and powers of the Regulator and the Commissioner. All functions and powers of the Regulator and the Commissioner will now be the functions and powers of the Vanuatu Maritime Authority.

The Authority is composed of the following members:

- (a) the Director General of the Ministry responsible for maritime; and
- (b) the Director General of the Ministry of Finance and Economic Management; and
- (c) a person appointed by the Minister upon the recommendation of an evaluation committee.

The Authority will now be responsible to regulate the entire maritime sector of Vanuatu. The Commissioner will be responsible for the administration of the office and

may perform such functions and exercise such powers as are delegated to him or her by the Authority.

### **Marine Pollution Fund**

Another key policy reason for this amendment is the establishment of a Marine Pollution Fund. The Fund consists of:

- (a) fees prescribed by Minister for domestic and international vessel visiting Vanuatu; and
- (b) monies appropriated by Parliament to fund marine pollution initiatives; and
- (c) monies that are donated by donor partners or non-government organisations for marine pollution initiatives.

The fund will be managed for the following purposes:

- (a) to develop a marine pollution and management plan; and
- (b) to develop a marine pollution response plan; and
- (c) to fund marine pollution projects; and
- (d) to finance marine pollution equipment; and
- (e) to finance investigations relating to marine pollution.

The policy objective of the Fund is to ensure resources are available for the Authority on behalf of Government to fund any response and effectively deal with and protect our marine waters from any pollution from ships.
