Le Secrétariat du Parlement, avec le Cabinet du bureau du Président du Parlement de la République de Vanuatu, a pris une décision audacieuse avec l'appui du Conseil de gestion du Parlement de rénover la bibliothèque du Parlement afin qu'elle devienne temporairement la salle de l'Hémicycle du Parlement.

Cette décision découle du coût élevé lié au déplacement des séances du Parlement vers un autre lieu, ainsi que d'une volonté accrue de respecter les traditions et les coutumes. Saralana est le site du Parlement de la République de Vanuatu, offert par les grands chefs du Sud-Ouest de l'Île d'Efate au Parlement.

The Parliamentary Secretariat, together with the Cabinet of the Office of the Speaker of Parliament of the

Republic of Vanuatu, has taken a bold decision with the support of the Parliamentary Management Board to renovate the Parliament library so that it temporarily becomes the chamber of Parliament.

This decision follows the high costs associated with moving parliamentary sittings to another venue, as well as a stronger commitment to respecting traditions and customs. Saralana is the home site of the Parliament of the Republic of Vanuatu, given to the institution by the High Chiefs of South West Efate.

## REHABILITATION WORKS UNDERWAY – TRAVAUX DE REHABILITATION EN COURS

The Chinese company CCECC has had the contract to conduct the rehabilitation works and they are at it.

First, it saw the clearing of the four main pillars' foundations through digging and extracting the dag soil, next will be the reinforcement phase which will look more like an enveloppage of the pillars. The rehabilitation works should be completed in the first quarter of year 2026.

L'entreprise chinoise CCECC a remporté le contrat pour la réhabilitation du bâtiment du Parlement et les travaux sont en cours.

Dans un premier temps, elle a procédé au déblaiement de la terre autour des fondations des quatre piliers principaux. La phase suivante consistera à renforcer les piliers par un enrobage, consolidant ainsi la structure. Les travaux de réhabilitation devraient s'achever au premier trimestre 2026.
